

only the best technology
**When strength
 is everything**

Durable Synthetics

An Ariva exclusive and a unique product we've added to our digitally printable synthetics portfolio. Ariva Tex is slightly softer than polypropylene but with much more strength and durability like polyester, but without the cost. It is virtually tear-proof.

Applications

Using your production toner or HP Indigo press, Ariva Tex is perfect for a variety of applications

Sports bibs, maps, flags, durable documents or any other application requiring a substrate that takes a beating. There's also a version that's printable using solvent/eco solvent, latex or U.V.-cured wide format equipment!

Features

- Tear-proof
- Extremely durable
- Weather resistant
- Machine washable
- Ultra-smooth surface
- Perfect for flags, maps or racing bibs
- Printable using production toner and certified for printing using HP Indigo technology
