

Why Fusion?

FUSION SOFT POLYESTER is...

- specifically for toner-based digital printing
- resistant to static
- flexible (can be folded with ease)
- plus much more

Our Fusion Soft Polyester is water- and tear-resistant and has the excellent durability of polyester, but also feeds, prints and handles print finishing processes like paper does – with ease!

Toner-based digital printing uses heat and static electricity, and plastics – polyester in particular – are challenging to print when static is involved. Unlike competing polyester sheets, all of our Fusion Soft Polyester products are static resistant to ensure excellent, problem-free runnability, and print finishing performance in all environmental conditions.

Applications are infinite but Fusion Soft Polyesters are ideal for menus, placemats, and outdoor books and manuals.

Consider our Fusion Soft Polyester Lite 6mil as a perfect alternative to Tyvek.®

Fusion Soft Polyester

PRODUCT SKU	SIZE	GSM	CALIPER	SHTS/CTN
F4PYH121WHD6PWI	12 x 18	144	6MIL	500
F4PYH121WHD7PWI	12 x 18	220	7.5MIL	400
F4PYH121WHD1PWI	12 x 18	274	10MIL	300
F4PYH121WHD2PWI	12 x 18	310	12MIL	250
F4PYH121WHD3PWI	12 x 18	360	13MIL	200
