## ALL-PURPOSE PAPERS

Need a substrate for everyday applications like short-term indoor or outdoor signage, temporary or way-finding banners, info signs and even backlit displays? Ariva's all-purpose coated inkjet papers are just the tool. And we have a solution for both aqueous and solvent systems.

Ariva 8mil matte coated presentation paper for aqueous systems and Ariva 8.5mil satin Poster Paper for solvent, eco solvent, UV and latex systems are perfect everyday companions – house sheets really.

Both are heavy duty coated inkjet papers that are durable for short-term outdoor applications. With either a matte or satin finish, each allows for quality printing with vivid colours, dense blacks and no need for lamination.

Ariva Poster Paper ES is a latex-optimized, FSC-certified wet strength inkjet paper so it can be posted, or withstand limited exposure to the weather or longer-term exposure if encased.

Ariva 100lb gloss coated poster paper is suitable for inkjet UV printing, and is a cost-effective solution for producing short-term, high resolution graphics and posters. Manufactured in North America.

### FSC PRESENTATION PAPER MATTE 8MIL | A

PRODUCT SKU	SIZES	CORE	PRINT SIDE	RPC*	SQ. FT.
W11JM242WMHCGM1	24" x 100"	2"	PSO	1	200

## LASER BOND

Our Laser Bond is treated to enhance toner adhesion so dense images are easily printed. Excellent for renderings, construction plans, presentations, etc.

### FEATURES:

- Economical
- Smooth surface
- Excellent formation

### BENEFITS:

- Optimal value
- Excellent quality printing
- Quality converting, dust free

### APPLICATIONS:

- Construction plans & renderings
- Short-term economy, monochrome
- Wide format laser printing

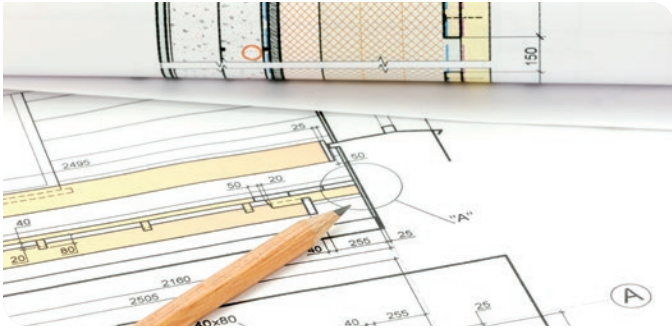

### LASER BOND 20LB | A

PRODUCT SKU	SIZES	CORE	PRINT SIDE	RPC*	SQ. FT.
W4EBM245WHH2GEP	24" x 500"	3"	PSO	2	1,000

## ENGINEERING INKJET BOND – AQUEOUS

Available in 20lb and 24lb basis weights, our engineering inkjet bonds are an economical choice for short-term inkjet applications and feature a smooth surface and a bright white shade.

### FEATURES:

- 20lb & 24lb basis weights
- Aqueous (dye & pigment) ink compatibility
- Economical

### BENEFITS:

- Selection of basis weights
- OEM compatibility
- Value

### APPLICATIONS:

- Architectural renderings & drawings
- Presentation printing

## PREMIUM MATTE COATED INKJET BOND – AQUEOUS

A premium coated inkjet bond with a water resistant finish allowing for the production of crisp lines, dense images and fast dry times. Available in 24lb, 36lb and 46lb basis weights, they are ideally suited for many types of high volume CAD and graphic applications. Compatible with dye and pigmented aqueous inks.

### FEATURES:

- Water resistant
- Quick dry
- Economical

### BENEFITS:

- Ideal for short-term signage
- Accepts heavy ink loads, improves productivity
- Suitable for a variety of projects

### APPLICATIONS:

- Added durability needing water resistance
- Architectural renderings & drawings
- Presentation printing
