## MAX VUE MESH BANNER

Exclusive to Ariva, this 14mil semi-gloss mesh banner with liner is reinforced with polyester scrim for added durability. The liner simplifies the printing process by preventing ink spray through and facilitating feeding of the media through the printer. Additionally it is equipped with a special liner for easy removal after printing in latex systems.

### APPLICATIONS:

- Outdoor banners
- Window signage
- Large advertisements where a "see through" effect needed
- 50/50 opacity
- Job site signage

### BENEFITS:

- Tiny perforations decrease wind resistance
- Perfect for indoor & outdoor use
- Water-resistant
- Ultra strong
- Flame-resistant

#### ARIVA MAX VUE MESH BANNER GLOSS 14MIL | SEUL

## CLINGZ® WIDE FORMAT UV

ClingZ® Wide Format UV is an adhesive-free, statically charged graphic film manufactured to match the specific characteristics of UV-curable wide format print systems. Ideal for large format temporary signage and marketing applications, it clings up to 3 months on any dry indoor surface, except fabric or very porous materials. ClingZ Wide Format UV is a 100% polypropylene film lined with a 3mil full-contact PET backer. Be sure to ask us for the printing and finishing tips.

### FEATURES:

- No residue adhesion
- Approved for direct food contact
- Professional installation not required
- Can be die-cut, kiss cut, perforated, scored or folded
- Easily tiled for large graphics

### BENEFITS:

- 100% PVC free
- Made from polypropylene – recyclable plastic #5
- Coated paper backer is 95% repulpable

### APPLICATIONS:

- Point of sale messaging
- Entertainment & event marketing
- Banners
- Temporary wall coverings
